A powerful storm system moved across the Midwest and Great Lakes Thursday into Friday bringing snow, high winds and unseasonably bitter cold air. As the arctic air arrived snow spread across the entire area during the day on Thursday. Temperatures fell rapidly from the low to mid 30s to the single digits in only 1-2 hours later in the afternoon and evening. Temperatures fell below zero during the evening. Most of the accumulating snow ended by midnight. High winds gusting 40 to over 50 mph caused severe blowing and drifting of the snow, especially in the open areas. Snowfall amounts generally ranged from 1 to 3 inches, however, there were some amounts reported that were below 1 inch. Meteorologist: Tom Piazza, CCM.
