The powerful storm system continued to intensify Friday into Saturday in the Eastern Great Lakes and Southeast Canada. Snowshowers and flurries continued into Saturday morning with Trace to minor accumulations across the region, along with high winds and unseasonably bitter cold air. Temperatures fell to 5-10 below zero Friday morning and only rose to 0-5 above during the day. High winds gusting 40 to over 50 mph caused severe blowing and drifting of the snow, especially in the open areas. Meteorologist: Tom Piazza, CCM.
