A low pressure system moving across Southern Illinois and the Ohio River Valley brought light snow across the region Saturday night into Sunday morning. Accumulations were a few tenths of an inch up to 1-2 inches. Winds were light with temperatures in the upper 20S to low 30S. During the day Sunday, the snow tapered off and ended in many locations by mid-day, then very light snow re-developed Sunday afternoon and evening causing a dusting of additional snow across the region. Temperatures fell into the low to mid 20S also causing re-freeze and freezeback on untreated surfaces.  
 Meteorologist: Tom Piazza, CCM.
