A major storm system moved from the Central Plains into the Southern Great Lakes Saturday spreading snow, rain and some freezing rain and sleet into Illinois. Snow amounts were the heaviest near the Wisconsin border where 5 to 8 inches fell. Snow amounts tapered of southward across the region with only 1-2 inches along I-88 and little or no snow south of I-80. There was some minor freezing rain amounts mainly south of I-90. Winds increased and caused some minor to moderate blowing and drifting snow. Temperatures were in the 20s north half of region and reached the 30s south of I-80. Some snowshowers persisted into Sunday morning bringing additional dusting of snow after the main snow ended Saturday night. Meteorologist: Tom Piazza, CCM.
