A major storm system moved from the Southern Plains into the Great Lakes spreading rain, sleet and freezing rain into Northern Illinois and Southern Wisconsin Wednesday. Some minor sleet accumulations occurred north of I-88. Freezing rain was mainly in the North, Northwest and West suburbs on westward into Northwest Illinois. The heaviest ice accumulations of 1/4 to 1/2 inch were on elevated surfaces. Strong winds in combination with the ice caused major tree and power line damage west of I-294 in Lake and Northwest Cook County, McHenry, Dupage County west into Iowa, and north into Wisconsin. Temperatures were mainly in the low 30's near 32 degrees. Meteorologist: Tom Piazza, CCM.
